

## 2017-18 MIBLSI Implementation Specialist Coaching Feedback Survey

### Introduction and Directions

---

Over the past year, the MIBLSI Implementation Unit has been prioritizing its time to focus on the development of a coaching system that requires the use of effective coaching skills with District Implementation Teams (DITs) and Regional Implementation Teams (RITs). Our model of support extends to both the MTSS Coordinators and implementation team members; however, a higher amount of time is allocated to coaching MTSS Coordinators. This is because MTSS coordinators typically have more time allocated to prepare for implementation team meetings and follow-up on activities generated as a result of those meetings.

One aspect of an effective coaching system is to collect information and feedback from coaching recipients. This MIBLSI Implementation Specialist Coaching Feedback Survey is one source of information we will be using to further strengthen our MIBLSI coaching system.

The coaching survey will be used by our Implementation Unit to strengthen:

- Coaching processes
- Refinements to the Implementation Unit Coaching System
- Professional learning opportunities
- The overall MIBLSI project
