The TASN School Mental Health Initiative (SMHI) is funded through a grant from the U.S. Department of Education (#H323A17006) and is administered by the Kansas Department of Education. Content does not necessarily represent the policy of the U.S. Department of Education and endorsement by the Office of Special Education Programs should not be assumed. The SMHI does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities. Inquiries regarding non-discrimination policies should be sent to: Deputy Director, Keystone Learning Services, 500 E. Sunflower Blvd., Ozawie, KS 66070; 785-876-2214.

# School Mental Health Professional Development and Coaching System

## Objective 1

**Scale  
capacity of  
cross-system  
teams**

## Objective 2

**Tiered mental  
health  
supports**

## Objective 3

**Cross-system,  
data-based  
decision  
making**

## Objective 4

**Replicate  
resources  
statewide**

# The Who, What, Where, When, Why, and How

**Who**

District-Community Leadership Teams (DCLTs)

**What**

Align cross-system efforts, processes, and practices

**Where**

Onsite and online

**When**

Monthly with action items  
between meetings

**Why**

Child/youth, caregiver, and staff  
mental health

**How**

Implementation Process  
and Planning Components

## Traditional

**School has one plan;  
CMHC has another**

**Schools concerned *only* with  
academic growth; CMHCs  
concerned *only* with MH**

**No shared/mutual data points or  
progress monitoring**

**Districts & community partners  
function as separate teams**

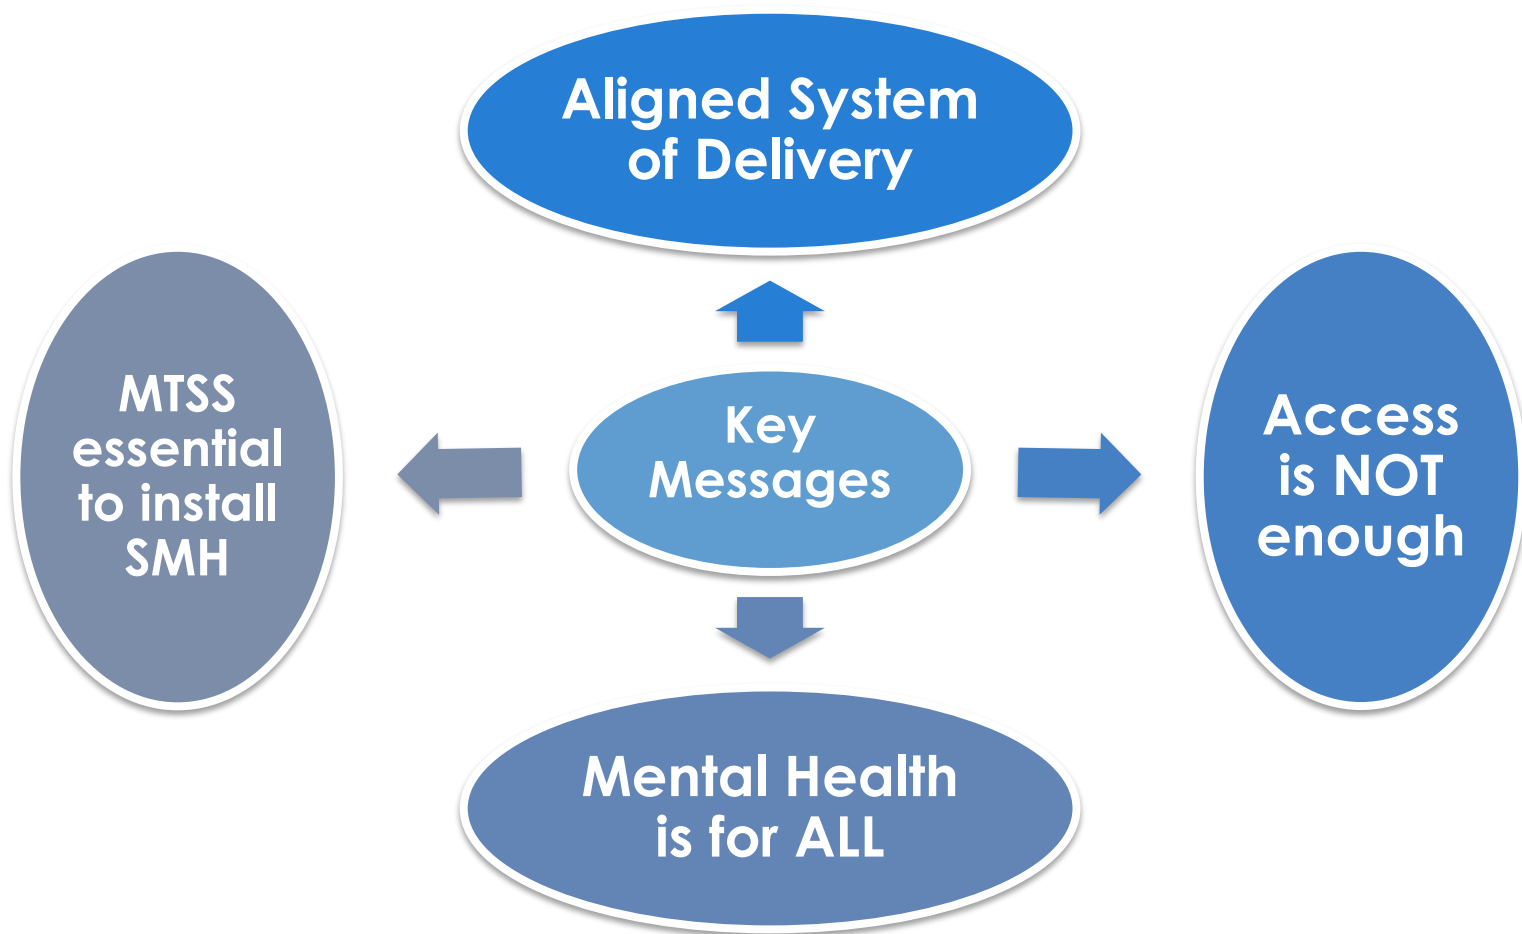

## Interconnected

**MH practices & processes based  
on district AND community data**

**Shared cross-system plan to  
develop capacity across all staff**

**Interventions based on shared  
data**

**Fidelity & outcome data  
reviewed by cross-system teams**

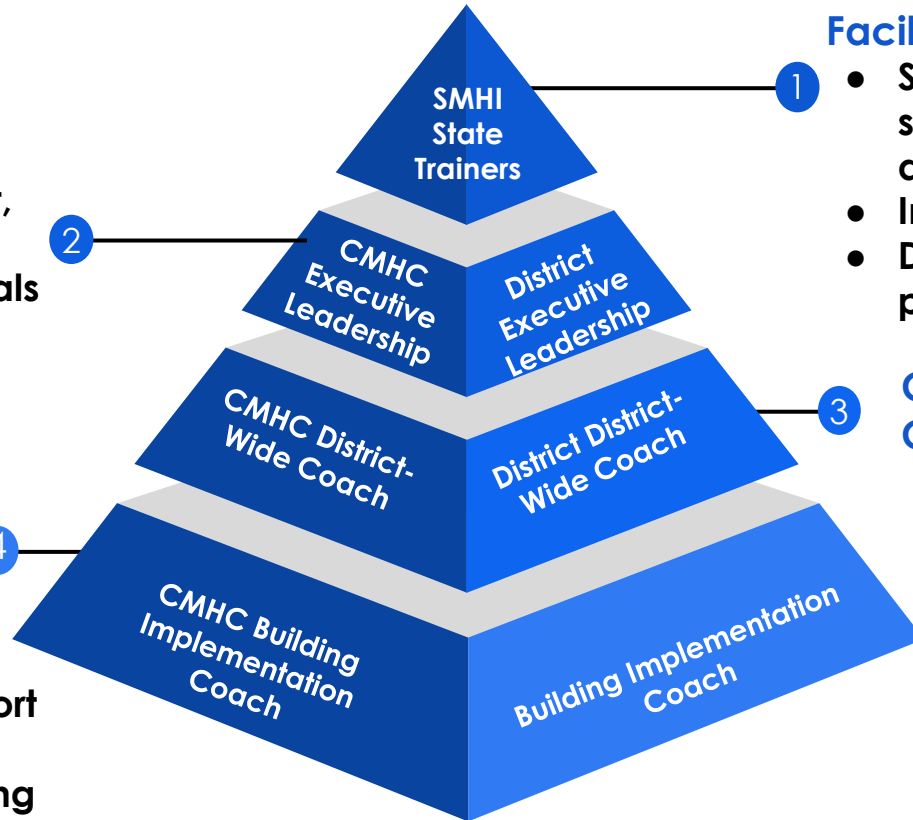

# What Does a Partnership With TASN SMHI Look Like?

## Goal Setting and Action Planning

- Data, needs assessment, gap analysis
- Manageable SMART goals
- Structured process for action planning

## Impact

- Outcomes for at-risk students:
  - Evidence-Based Practices
  - Child/Youth support planning and progress monitoring

## Facilitation

- Structured, cross-system dialogue and discussions
- Implementation Guide
- Develop DCLT priorities

## Coaching and Collaboration

- Resources
- Action planning support and follow-up

# School Mental Health Implementation Planning and Process Components

## IMPLEMENTATION PROCESS COMPONENTS

- Teaming and Planning
- Data-Based Decision Making
- Training, Coaching, and Implementation
- Stakeholder Communication

## IMPLEMENTATION PLANNING COMPONENTS

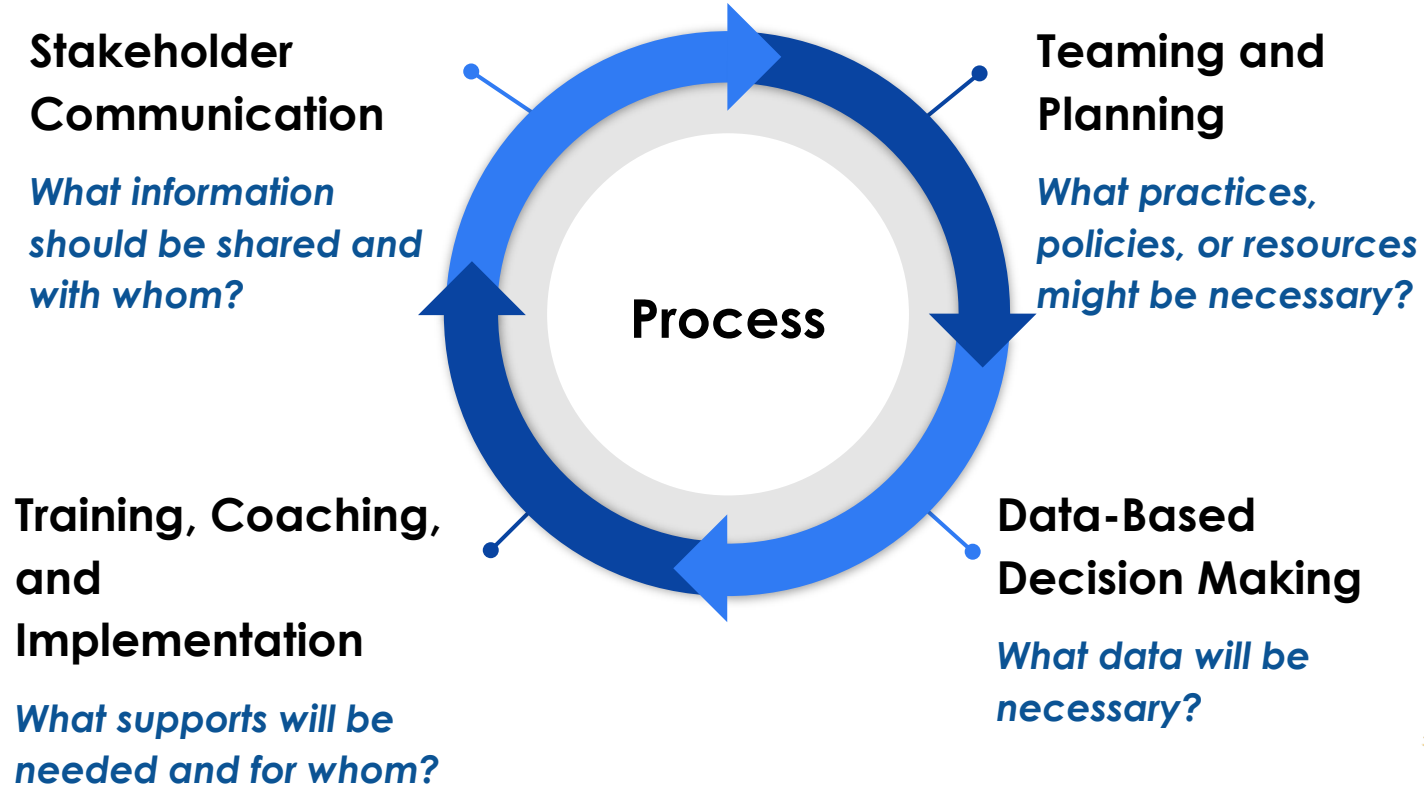

Trauma-Responsive School Community

Support Planning and Progress Monitoring

Referral Protocol

Transition and Reintegration Plan

# DCLT Process (Self-Correcting) Feedback Loop

# Benefits

Improved Efficiency	Improved Effectiveness	Refinement and Sustainability
<ul style="list-style-type: none"><li>● A shared vision to support the mental health needs of all children and youth</li><li>● Consensus and commitment to align practices and share resources</li><li>● Continuity of policies, practices, and language across district and community partners</li><li>● Continuum of supports specific to the needs of the community</li><li>● Decisions based on both district and community data</li></ul>	<ul style="list-style-type: none"><li>● Adoption and implementation of evidence- and research-based practices.</li><li>● Development of a plan that addresses:<ul style="list-style-type: none"><li>○ the capacity to support the implementation of effective practices,</li><li>○ the competencies necessary for implementation,</li><li>○ implementation fidelity, and</li><li>○ measuring impact</li></ul></li></ul>	<ul style="list-style-type: none"><li>● The systems-level infrastructure needed to support effective practices</li><li>● Ongoing, self-correcting feedback loop across district/community leadership teams to support continuous improvement</li><li>● Alignment with existing community and district improvement efforts including Kansas Education Systems Accreditation, School Redesign, and local district board goals</li><li>● Networking opportunities to learn from and assist other cross-system teams</li></ul>

# Discussion

**How has your state/project promoted the social-emotional and mental health of educators and students during COVID-19?**

## [Kansas Continuous Learning Resources](#)

- Share comments and links to resources in the chat**
- Verbally share with the group**

# Brainstorming

**How might the SMHI project measure fidelity of implementation tied to student outcomes?**

# From Implementation to Outcomes

System Implementation	Intervention Implementation	Child Outcome
<p>Aggregated annually, 70% of District/Community Leadership Teams (DCLTs) participating in the School Mental Health Initiative improve in or sustain implementation of SDPG-supported practices as measured by progress in achieving implementation milestones as observed by SMHI State Trainers and documented in the <i>School Mental Health Implementation Guide</i>.</p>	<p><b>Project Measures allude to this:</b></p> <ul style="list-style-type: none"><li>• Educators report following proactive, structured policies and processes to streamline students' access to mental health services</li><li>• Interventionist report that mental health interventions are implemented with fidelity</li><li>• Students who participate in mental health interventions have family members involved in the decision-making process</li></ul>	<p>Aggregated annually, 70% of students with disabilities who participate in mental health interventions demonstrate progress in positive mental health as reported by the District–Community Leadership Team and documented on the <i>Trauma-Responsive Student Support Plan and Progress Monitoring Spreadsheet</i>.</p>

# What does fidelity include?

- **Fidelity to the trauma-informed functional behavioral assessment (FBA) and student support plan (SSP) development process**
- **Fidelity to the intervention (dosage and quality)**
- **Fidelity to the progress monitoring process (reviewing intervention and progress data, making adjustments)**

# Why measure fidelity at this level?

**Responses from collaborating stakeholder group including local implementers, SMHI project staff, national consultants:**

- It helps the building-level team stay the course after they are trained.
- It answer the question, “How do we know we’re doing it correctly?”
- When I see that a student hasn’t made progress, my mind immediately goes to the questions about adult actions / fidelity.
- These are the questions that I’m asking (as the state trainer/coach) during each meeting; a form/process can ask these questions and promote sustainability.
- This is what we’re already thinking about. It’s the right thing to advocate for.
- It’s already in the implementation guide but not asked for each student.

# Discussion

**How might the SMHI project measure fidelity of implementation tied to student outcomes? How does your project or other projects you know measure intervention fidelity (Tier 2 and Tier 3)?**

- ☐ Share comments and links to resources in the chat**
- ☐ Verbally share with the group**

# Discussion

**How do you measure the quality of your virtual professional development? How do you assess participants' knowledge and skills?**

(EBPD Rubric Indicators B(2), B(3), and B(4))
