States Using the R-TFI Reporting System

- AR
- CA
- CT
- HI
- IA
- IL
- MN

- OH
- OR
- SD
- UT
- WA

Questions for States

- Do you have a state-level data system that you would like the R-TFI data to feed into?

    - IF "No" THEN, possibly follow-up with whether this would be a desired feature and identify who would find it useful for a follow-up call with that group.

    - IF "Yes" THEN...

- Would the PBISApps API for the SWPBIS Tiered Fidelity Inventory serve as a good model for a future Reading Tiered Fidelity Inventory API?

    - With either a "Yes" or "No", a follow-up question can be, "Does anyone have a possible alternative model API that you might suggest?"
