

CNMI SPDG: *Project Higai*

"Woven Palm Leaves"

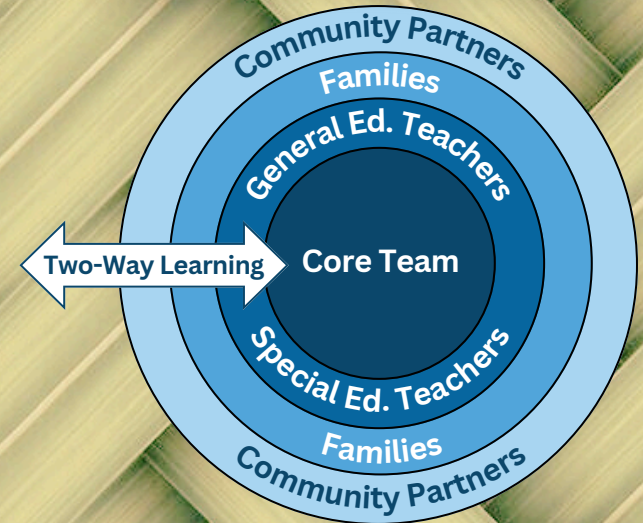

Human and Technical Solutions for Success

GOAL

Project Higai aims to connect educators and families for improved student outcomes by designing an effective, efficient, and sustainable professional development through the school district's Learning Management System (LMS). The project focuses on building capacity and implementing evidence-based practices to improve educational results for students with disabilities.

Building Engagement Across the Stakeholder Groups

How do we ensure that all students with disabilities are on the path to PROGRESS?

CNMI SPDG: *Project Higai*

The successes of the past year are highlighted here.

Human-Side

LEADING BY CONVENING

"Meet people where they are at."

Stakeholders at various levels collaborate to drive improved outcomes for the school district. Implementation Support Practitioners facilitate meaningful conversations, ensuring that sustainable change is achieved through inclusive representation of all stakeholders.

SPECIFY NEEDS

Identifying the specific needs of district staff and building their competence and capacity to better support and improve educational outcomes for students with disabilities.

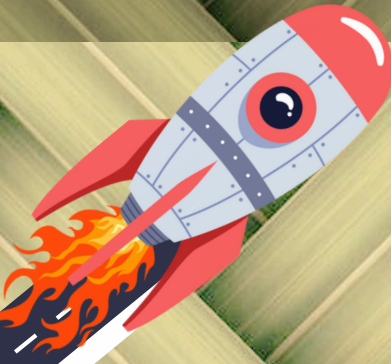

LAUNCH COURSE

The first course of the IEP Series launched in October 2024 as a pilot program. Feedback from participants will be collected to inform future improvements. Once refined, the course will be rolled out district-wide for all educators.

4

Technical-Side

CREATE ONLINE COURSE: IEP SERIES

Enhance the current professional development system by leveraging technology to deliver evidence-based training, focused on improving specially designed instruction and creating high-quality educational programs.
