GPRA Review Progression

Overview of GPRA Results

The slide features a white background with a decorative graphic on the right side. This graphic consists of several overlapping, semi-transparent green shapes in various shades, including light lime green, medium green, and dark forest green. These shapes are primarily triangular and polygonal, creating a dynamic, abstract composition that tapers towards the top right corner.

Considerations

Be clear about the fidelity measure you used.

How will the reviewers know it's a fidelity measure?

If your fidelity measure is a self-assessment, describe 20% external observation reliability check, if possible.

If it's not a self-assessment make that clear in your description.

Setting next year's targets... are your targets appropriate?

For Program Measure 2, fidelity measures an intervention, practice, or program experienced by the child/student.

- ▶ For instance, a SPDG is using a multi-tiered system of support (MTSS) that is focused on reading. LETRS is the intervention being used to teach reading. The SPDG should use a fidelity measure that captures personnel use of LETRS
 - ▶ A measure of MTSS implementation fidelity (*i.e., district and school level process support*) is still critical for the project and should be reported as a project measure.

Intervention Fidelity

Fidelity Requirements & Strategies

- ▶ Program/GPRA measure has changed to “intervention fidelity.” This means the intervention that is expected to improve outcomes for children with disabilities.
- ▶ Strategies for data collection:
 - ▶ Sampling
 - ▶ Determining common essential features across different interventions
 - ▶ Determining benchmarks across different types of measures and reporting the percentage of sites that met their benchmarks?
- ▶ What other strategies can you think of?

Another Program Measure 2 Example

- ▶ A SPDG is implementing PBIS with a focus on intensive intervention. The grant could assess fidelity to plans derived from the functional behavior assessment (FBA).
 - ▶ They also need to think about the processes that are supporting this adult behavior (implementing the plan that resulted from the FBA). Is it a student study team that creates the FBA and implementation plan? The team processes may be the **implementation fidelity measure** reported as a **Project Measure**.
 - ▶ Systems vs. Interventions
 - ▶ Do you have another way of thinking about it?

Setting Targets

- ▶ Challenging but achievable
- ▶ Analyzing your history and the outcomes other initiatives are experiencing.
- ▶ Set the target for your out-years
 - ▶ Work with your Project Officer
 - ▶ Targets can be changed

Reliability Check

Only for fidelity measures that are “self-assessments”

20% reliability check conducted by someone not involved in the day-to-day of the work

Be clear regarding:

- Is it a self-assessment?
- If yes, who did the reliability check and what are they considered and “outside observer”

Conversation Café on Fidelity

- **Goal Attainment Scaling** – How to do it and how to use the data collected (I have some names to recommend of people who know it well and who can share examples from their grant work)
- Use of **procedural checklists** for self-assessment and monitoring of fidelity by observer(s)
- Go-MTSS – a **statewide data system** developed in GA (Laura Brown) That might not be exactly the name but Laura will know. She talked about building the system, using the data, and expanding it to include fidelity data.
- **Identifying the essentials** (and not everything) as you monitor fidelity. More pd or data may be added if you need to figure out what is not working
- **What to target** (implementation at the student level, professional development, team, or state level)? How to prioritize if they cannot do it all?
- **How to monitor fidelity efficiently** at the student level to be sure teachers are implementing the evidence-based practices as intended and getting student-level results.
- **Sharing toolkits** for teaching people about fidelity, how to collect and report data, and so on

Deeper Dive

- ▶ **Question: What to target** (implementation at the student level, professional development, team, or state level)? How to prioritize if they cannot do it all?
 - ▶ **Answer:** Implementation at the student level
 - ▶ **Consideration:** Are there measures that could be taken off your plate?
- ▶ **Idea: Sharing toolkits** for teaching people about fidelity, how to collect and report data, and so on
 - ▶ **Question:** What would a fidelity toolkit include?
 - ▶ **Question:** Do we already have pieces of this toolkit?
 - ▶ **Question:** Who would like to form a subgroup to put this toolkit together?

Fidelity Fridays

TGIFF: Thank Goodness It's Fidelity Friday

- ▶ What should the next topic be?
- ▶ Pop it in the chat, please.

Overall APR Considerations

Submitting your Program Measures

Please submit your draft **Program Measures** to your Project Officer by April 15th, 2025 for review. You do not need to submit your Project Measures, only your Program Measures.

Reminder: If it is your first year please give a draft of all of your measures to your Project Officer.

Large Available Balances (LAB)

You will receive an email if you have a large available balance (*LAB = >70% of your annual budget*)

You will need to complete the SF-424 financial form and attach it to your APR in G5.

Note that the financial form is shown for every grantee, but only those who are notified must include it with their APR.

In APR Section B, please provide a strong description of reasons you have not been able to spend down your funds and your plans to do so going forward.

Contact your OSEP Project Officer with
any questions!

WHY IS THIS IMPORTANT?

HIGH-QUALITY OBJECTIVES & MEASURES:

Make it easier for you to measure your progress

Allow you to report progress easily and quantitatively

Establish targets (both short-term/annual and long-term)

Allow OSEP staff to gather evidence of program effectiveness

PERFORMANCE MEASURES ARE:

Measurable indicators used to determine how well objectives are being met.

How will progress be assessed?

How much progress will constitute success?

How will it be known if an objective or part of an objective has been achieved?

TYPES OF PERFORMANCE MEASURES

Program

Measures established by OSEP for the Personnel Development program. These include measures established for reporting to Congress under the Government Performance and Results Act of 1993.

TYPES OF PERFORMANCE MEASURES

Project Measures

- Measures that the grantee establishes to meet their project objectives
 - Project performance measures can address both the **process** of working towards an objective and the **outcome** related to meeting the objective
 - Ensure a mix of both process and **outcome** measures

HIGH-QUALITY PERFORMANCE MEASURES

High-quality performance measures show:

- ❑ **What** will change.
- ❑ **How much** change you expect.
- ❑ **Who** will achieve the change.
- ❑ **When** the change will take place.

COMMON PROBLEMS

- ❑ Activities are **NOT** performance measures
- ❑ If the best response is “Yes, we did that,” it is likely an activity (not a performance measure)
- ❑ Examples of activities:
 - ❑ Training a certain number of sites
 - ❑ Hold an Advisory Board meeting quarterly
 - ❑ Establish a mentoring program
 - ❑ Evaluate the project
- ❑ Performance measures need to be measurable

SUMMARY

- ❑ Projects should have a few clear objectives that explain what the project is doing to support their overall goal(s)
- ❑ Each objective should have a few, specific performance measures to demonstrate how progress toward meeting the objective is being measured
